## **DETAILED ACTION**

### ***Specification***

1. The disclosure is objected to because of the following informalities: On page 5, line 4, it is thought that –a—should be inserted after “for”.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 3-6 and 10-13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Regarding claims 3-6 (Figures 1-2), the recitation of a hollow body including a window wiper or anti-freeze fluid reservoir is not enabled in the description in that it is unclear how the hollow body reservoir would be filled while being sealed within the inner and outer hood panels and it is unclear how the reservoir would be functionally associated with the windshield cleaner spray nozzle and the radiator. Regarding claims

10-13 (Figures 3-4), the recitation of a hollow body including a window wiper or anti-freeze fluid reservoir is not enabled in the description in that it is unclear how the hollow body reservoir is retained in an inverted position within the holes 40 and it is unclear how the reservoir would be functionally associated with the windshield cleaner spray nozzle and the radiator. These claims have not been further treated on the merits.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, 7, 8, 9 and 14 rejected under 35 U.S.C. 102(b) as being anticipated by Taghaddos.

Taghaddos discloses the claimed invention including energy absorbing bodies within a vehicle hood with some of the bodies aligned with hard points of the vehicle and wherein the bodies may be filled with foam. See Figure 1 and column 2, lines 59.

**Conclusion**

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references relate to the current invention.
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph D. Pape whose telephone number is (703) 308-3426. The examiner can normally be reached on Tues.-Fri. (6:00-4:30).
